

# The Meridien Steels

Meridien Steels produces customized roll formed products using a wide range of materials,

- Stainless Steel (Mirror, hairline,304)
- Mild Steel
- Galvanized Iron
- Galvalume
- Zinc Coated Sheets
- Aluminium
- Copper
- Brass

By using over 30 various size combinations, we produce four different shapes of roll products to be used to make your dream building become a reality.

## Benefits of using Roll Formed Products

**Cost Efficient** – It's very effective when used for stainless steel and steel fabrication. By using the correct profiles, you will be able to save up to 50% of your cost.

**Easy and Simple** – Time spent for cutting and bending is reduced and it simplifies steel fabrication.

**Uniform Production** – Continuous roll forming reduces part-to-part variations in finished products.

## Products

**L Sections** – Used for partitions, racks and frames

**U Channel** – Stainless steel U Channel used for glass beedings and frames, wall brackets and casings.

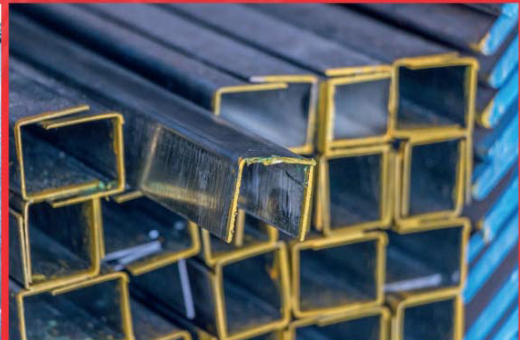

**Hat Section** – A furring channel used for ceilings, partitions, racks, grills and fencing options (heavy gauge)

**C Purlins** – Used for roofing and wall cladding support, partitions, wall brackets (small profiles), grills

### SIZE CHART

L Angle	U Channel	Hat Section	C Purlin
20 x 20	12 x 12 x 12	12 x 20	15 x 25
25 x 25	20 x 12 x 20	20 x 20	15 x 50
30 x 30	25 x 25 x 25	15 x 25	25 x 50
40 x 40	35 x 25 x 35	25 x 25	50 x 50
50 x 50	35 x 35 x 35	25 x 40	25 x 65
15 x 30	10 x 35 x 10	25 x 50	38 x 75
20 x 40	15 x 50 x 15	25 x 75	50 x 100
25 x 50	25 x 50 x 25	25 x 100	65 x 150

- Thickness – 0.6mm to 2.3mm
- Length – According to customer requirements

## Why choose Meridien?

- Positioned in a central location, our experience of over 30 years in the steel market will prove to be in your favour.
- The raw materials that we use are produced within our premises and we have our own slitting line.
- With our fast production time, you will be able to proceed with your activities sooner.
- We will use any material of your choosing and will customize the size of the products according to the way you want.
- Our products go through quality assurance check in order to meet the international standards.

## About Us

Established in 1986, we have been in the steel market for over 30 years and have taken a step towards manufacturing our own products. Our belief is that customer loyalty is priceless, therefore we have trained our employees in providing a quality service in order to maintain our business-customer relations.
